ABOUT WORLDSKILLS AUSTRALIA

WorldSkills Australia's purpose is to influence, challenge and support Australians to contribute to a sustainable economy through development, recognition and promotion of excellence in skills. Since 1981 we have been the leading voice for skills excellence in vocational, technological and service-oriented careers in Australia and have raised the awareness of hundreds of thousands of young Australians, as well as their parents, industry and employers that our nation's future depends on an effective skills training system.

ABOUT WORLDSKILLS COMPETITIONS

Like the Olympics, WorldSkills Australia competition activity begins at grass roots level, in competitions held in one of 34 regions around Australia. Competitors may have the opportunity to progress to competing at national and international levels, in front of over 200,000 people. That's gold!

More than 60 trades and skills from seven skill clusters are represented at a WorldSkills competition.

Competitions are designed by industry and skills experts who assess an individual's knowledge, practical competence and employability skills against a set of strict criteria.
